Subject: Info on HT-40

Hi All,

I just bought a Hallicrafters HT-40.(don't have it yet) All I know about it is that it is xtal controlled and about 40W input power CW and AM.

Can anyone tell me more about it and also someone told me they thought there was a matching receiver made by Hallicrafters for the HT-40.. Can anyone tell me the model number of such a receiver?? Also would like to know something about the receiver ie. coverage, no. of tubes etc.

Thanks in advance,

Bob, AC5AM
